# Summer 2015 MARI Volunteer Survey Web/Phone Training

Linda Barker

6 – 7 pm May 21, 2015

#### Why Monitor Artificial Reefs?

- To meet requirements of the Artificial Reef Plan.
- To evaluate the performance of artificial reef projects.
- To collect data to support permit renewal and funding requests.

# We are Learning About...

- Fishing Success
- Species Diversity
- Fish Lengths
- Angler Attitudes
- Volunteer Data Validity
- Survey Costs

# **General Survey Outline**

- Logbooks (& hats) have been mailed let us know if you have not gotten yours by next week.
- Go Fishing! on your assigned site from May 30 Aug 30.
- Record information on ALL trips.
- You may scan and email pages to Erik Zlokovitz during the summer.
- ALL log sheets must be returned at the end of the survey (SASE will be mailed to you).
- DNR will analyze the information and provide reports to participating anglers and the Artificial Reef Committee.

# **First Things First**

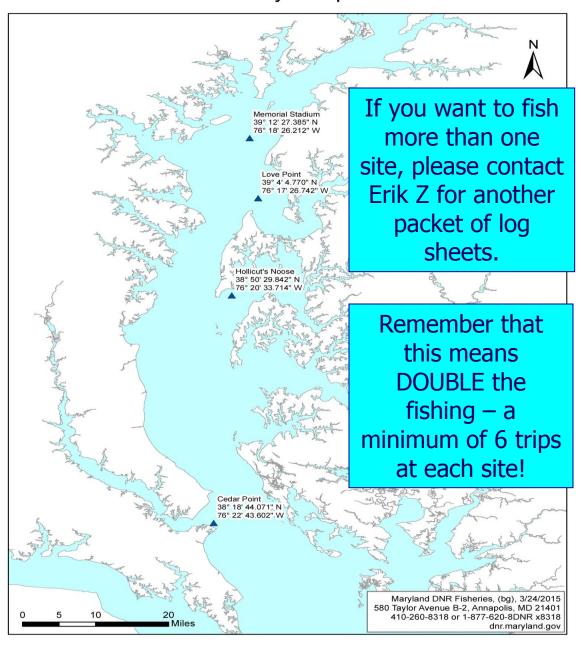

- DNR Fishing License!
- A boat = ability to fish on MARI sites
- GPS ability to fish on designated location
- Ability to take at least 6 fishing trips
   (2 per month) between June August.

# OK, Let's Fish!

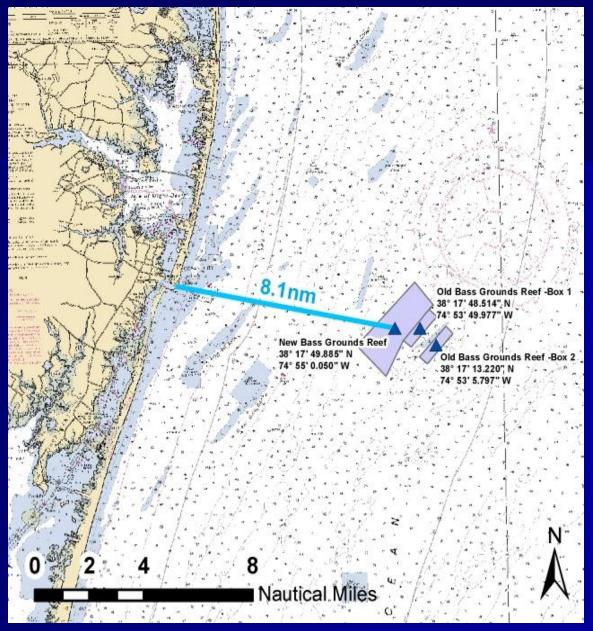

- Start fishing Saturday May 30
- Make at least 6 trips, 2 per month, and more if you like.
- Fish at least 1 hour
- Last trip date = Aug 30

# Bay Study Sites

#### MARI Survey Sample Sites

# Ocean Study Site

		Site				Date
Species	Number Kept	Number Released		Length of first 10 (to nearest 1/2-inch)	White Perch	Striped Bass
White Perch				1		
Striped Bass				2		
				3		
				4		
				5		
				6		
				7		
				8		
				9		
				10		
Total Number of Fish Caught on This Trip						
Time Spent Fishing ( Hours & Minutes )						
Total Number of Anglers Fishing on the Reef						
\$ Spent on This Trip (gas, tolls, parking, launch fees, bait, food & drinks)						

		Sile		Date		
Species	Number Kept	Number Released	Length of first 10 White (to nearest 1/2-inch)	Striped Bass		
White Perch			1			
Striped Bass			2			
			3			
			4			
			5			
			6			
			7			
			8			
			9			
			10			
Total Number of Fish Caught on This Trip						
Time Spent Fishing ( Hours & Minutes )						
Total Number of Anglers Fishing on the Roof						
\$ Spent on This Trip (gas, tolls, parking, launch fees, bait, food & drinks)						

Upper Bay Study Sites

		Site			Date
Species	Number Kept	Number Released	Length of first 10 (to nearest 1/2-inch)	White Perch	Striped Bass
White Perch			1		
Striped Bass			2		
			3		
			4		
			5		
			6		
			7		
			8		
			9		
			10		
Total Number of Fish Caught on This Trip					
Time Spent Fishing ( Hours & Minutes )					
Total Number of Anglers Fishing on the Reef					
\$ Spent on This Trip (gas, tolls, parking, launch fees, bait, food & drinks)				1.1	

Lower
Bay
Study
Site

		Site			Date
Species	Number Kept	Number Released	Length of first 10 (to nearest 1/2-inch)	Croaker	Striped Bass
Croaker			1		
Striped Bass			2		
			3		
			4		
			5		
			6		
			7		
			8		
			9		
			10		
Total Number of Fish Caught on This Trip

Total Number of Anglers Fishing on the Reef					
\$ Spent on This Trip (gas, tolls, parking, launch fees, bait, food & drinks)					

# Ocean Study Site

		Site				Date
Species	Number Kept	Number Released		Length of first 10 (to nearest 1/2-inch)	Sea Bass	Flound er
Sea Bass				1		
Flounder				2		
				3		
				4		
				5		
				6		
				7		
				8		
				9		
				10		
Total Number of Fish Caught on This Trip						
Time Spent Fishing ( Hours & Minutes )						
Total Number of Anglers Fishing on the Reef						
\$ Spent on This Trip (gas, tolls, parking, launch fees, bait, food & drinks)						

#### Remember!

- Time = "lines in the water"

  to the nearest 10 minutes
- One log sheet per site per trip
- (Extra sheets provided on request)
- Only record YOUR catch
- Report EVERY trip

#### Request

- Will anyone take me on a trip?
- Please email or call
