### Instructions

1. Only include brook trout trip information.
2. Trips with no catch are as important to us as trips with catch!
3. Choose a Stream Name below. If you did not fish in any of these watersheds, write the name of the watershed where you fished.
4. Choose a Gear Type from the list below.
5. If more than one gear type is used on a given trip, fill out a separate row for each gear type used. You might use up to three rows for a single trip.
6. Record trip length to the nearest half-hour.
7. Please COUNT the number of fish caught. If total catch must be estimated, please indicate.
8. Measure all fish - do not estimate lengths.
9. Record the number of fish caught in each size range.
10. Record the lengths of all fish kept.
